***Restriction***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a mounting of a load cell in a weighing conveyor system.

Group II, claim(s) 6-15, drawn to a release mechanism for a belt for a conveyor.

Group III, claim(s) 16-26, drawn to mounting for a drive & transmission mechanism in a weighing conveyor system.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the mounting of a load cell in a weighing conveyor system (group I) has no technical features in common with a release mechanism for a belt in a general purpose conveyor which does not even mention weighing (or load cells) at all (group II); the mounting of the drive & transmission mechanism (group III) likewise does not have the same technical features as a mounting for a load cell or a belt release mechanism.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

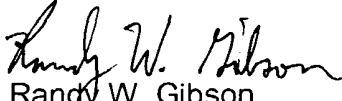

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randy W. Gibson whose telephone number is (703) 308-1765. The examiner can normally be reached on Mon-Fri., 9-5.
